

IQ-EQ France

Directorship and Management services in 3 minutes

Within the private assets ecosystem, IQ-EQ is a major international investor services group, with over 5500 employees in 25 countries and assets under administration (AUA) exceeding US\$750 billion. Supported by the dynamics of our group and with the ambition of contributing to the creation of added value for our customers, IQ-EQ in France supports entrepreneurs, alternative investment professionals and managers by offering them a range of services across the entire investment value chain.

In this vein, we offer our French and international clients directorship and management services. This means that we act as corporate officer for established or newly formed companies. This could entail, for instance, acting as Chairman or CEO in an SAS (simplified joint stock company), or as Manager in an SCI (non-trading property company).

Through our subsidiary IQ EQ France, we offer to take on the management of your companies, providing comprehensive support in their administration. This can include the management of your movable or immovable assets, such as appointing and supervising service providers such as property managers, opening bank accounts, or organizing the sale of assets.

Our team of experienced chartered accountants and specialised professionals can also take care of your company's accounting and, if necessary, its domiciliation via its IQ EQ SAS subsidiary.

Streamline and Transparent Procedure:

- We carry out full due diligence, including KYC on your company and its associates
- We review your file with the Management Committee to ensure an informed decision
- We enter into a contractual agreement, with clearly defined powers and responsibilities
- We carry out our mandate and provide regular monitoring according to your requirements, with precise and tailored reporting

Our Management Service includes the following missions:

- Appointment as company representative
- Active management in compliance with legal requirements
- Power restrictions (joint determination)
- Reporting according to defined format and frequency

At IQ-EQ, we are committed to providing you with high-quality directorship and management services, allowing you to focus on what truly matters: the growth and success of your business.
