## What value added solutions can Mauritius bring to an investment fund?

### Mauritius – the recognised fund administration platform

Mauritius is regarded as a well-recognised fund administration jurisdiction. Its conducive regulatory environment and extensive double tax treaty network make it a domicile of choice for global funds. Mauritius can administer funds investing into Asia, Africa, US, Europe and South America. These include private equity funds, venture capital funds, hedge funds, traditional one-tiered structure funds, master-feeder funds and side-by-side funds.

### What types of funds can IQ-EQ Mauritius administer?

- Geography: No geographical restrictions. Currently, IQ-EQ Mauritius administers funds investing into Asia, Africa and other parts of the world.
- Strategy: Private equity, venture capital funds, traditional mutual funds, hedge funds with diverse strategies and private debt and credit funds.
- Structure: One-tiered structure funds, master-feeder funds, side by side funds, funds with parallel vehicles and holding companies, protected cell companies/ segregated portfolios and variable capital companies (VCCs).

### Categories of Funds in Mauritius

There are two broad categories of Investment Funds, which are regulated in Mauritius. These are:

#### A. Collective Investment Scheme (Open ended fund) - ('CIS')

The four different categories of CIS that may be set up in Mauritius are:

1. Global Scheme: The Global Scheme is a company holding a Global Business Licence ("GBC"), as approved by the Financial Services Commission ("FSC") and is authorised to carry out activities falling within the definition of a CIS.
2. Professional CIS: The Professional CIS offers its shares solely to sophisticated investors or as private placements. The Professional CIS is exempted from some regulations generally imposed on CIS provided that (i) the shares acquired by its investors are not to be resold to the public and they are so advised of this restriction at the moment of subscription; and (ii) it is not listed for trading on a securities exchange.
3. Specialised CIS: The Specialised CIS invests in real estate, derivatives, commodities or any other product authorised by the FSC.
4. Expert Fund: The Expert Fund is only available to expert investors, i.e. investors who make an initial investment for their own account of no less than USD 100,000 or sophisticated investors. It is exempted from some regulations generally imposed on CIS, subject to necessary authorisation from the FSC.

## Key features of a CIS

- Pooling of funds from investors
- Collective investment of those funds into a portfolio of investments
- Investment based on risk diversification principle
- Redemption at the option of the investors
- Investors who do not participate in the day to day management.

## B. Closed-End Fund (Private Equity Fund) - ('CEF')

The CEF commonly refers to the private equity fund. A CEF which is not a reporting issuer can also qualify as a Professional CIS.

## Key features of a CEF

- Funds raised from public / retail / sophisticated investors based on prospectus
- Arrangement or a scheme, other than a CIS, constituted in legal form
- Investment of funds, collected from subscribers during an offering a portfolio of securities, or in other financial or non-financial assets, or real property
- Investors do not participate in day to day management.

## Why is it important to outsource fund accounting to an independent administrator?

- Fund accounting is a specialist function
- Fund accounting is time consuming and delivery of reports to investors is subject to tight deadlines
- Fund accounting requires specialist software
- In house fund accounting function is costly for the fund manager
- Investors prefer independence in fund accounting and fee calculation.

## What middle and back office support can IQ-EQ Mauritius provide to the fund manager?

- Instructing brokers and custodians
- Calculating and disbursing sub-advisory and trail fees
- Sending out reports and statements to investors
- Attending to investor queries
- Performing transfer agency function

## What special support can IQ-EQ Mauritius provide to investors?

- Depending on the requirements of investors, IQ-EQ Mauritius can tailor the frequency and format of its reporting
- IQ-EQ Mauritius provides guidance to investors regarding the fund documentation, and guidance on Customer Due Diligence (CDD) requirements of the fund.
