

Investor Solutions

Real time data. Serious experience.

**Welcome to
IQ-EQ, the
next word in
24/7 investment
intelligence.**

We know that investors are increasingly requiring more information and transparency from their investment managers. We know that they need multi-jurisdictional performance and risk metric reporting services, together with the technology and expertise to handle multiple asset classes, complex fund structures and bespoke reporting demands.

We also know the value, and complexity, of data led decision making. So we've brought together a top class team of experts with a unique data visualisation platform to transform the way you manage your investments.

Our experienced Investor Solutions team combines deep technical understanding of the investment fund sector with our leading edge technology platform — IQ-EQ Cosmos — to deliver an end to end portfolio monitoring solution.

Our online platform gives 24/7 access to any investor portfolio at a glance — anywhere, anytime. So whether you're a GP, LP, family office or UHNWI we can help you manage your investments.

Key benefits

Enhance
transparency

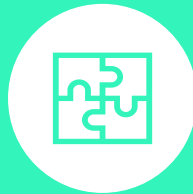

Reduce
operational risk

Reduce overall costs,
providing a one-stop shop
for investors

Leverage state of the art
technology, along with full
systems support

A fully customised solution
around your specific
requirements

Provides real time data online
from a single point of truth

“IQ-EQ provides excellent client service, technical expertise and are a pleasure to deal with. The IQ-EQ Investor Solutions team listened to our requirements and built custom dashboards that provide us with a comprehensive display of our investment activity. IQ-EQ’s client on-boarding team also supported us throughout the on-boarding process in a planned and structured manner, making it manageable to switch providers.”

**Director of Investments for a large US single family office,
Utah, USA**

Tailored reporting

Our teams are supported by our unique platform IQ-EQ Cosmos. A secure solution delivering real time data reporting and data analysis, this platform can interface with a whole host of systems to combine best in class accounting technology, with leading edge visualisation software.

Our clients benefit from our robust cyber security measures. Encrypted data within the platform is safeguarded by a top rated identity authentication provider and shielded within the secure IQ-EQ network. We are SSAE 18 compliant with robust data security and disaster recovery protocols.

Our in-house development team can create a bespoke online dashboard tailored to your particular needs and specific portfolio composition that is accessible anywhere, anytime.

Essentially we are a one stop shop for your back and middle office functions.

Key features of portfolio monitoring

- Portfolio monitoring and analytics
