## 1 IMPORTANT INFORMATION

---

The Directors (whose names appear under the heading "Management of the Company – Directors" in the Prospectus), accept responsibility for the information contained in this Supplement and the Prospectus. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement and in the Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information. The Directors accept responsibility accordingly.

Shareholders should note that all the fees and expenses of the Fund may be charged to the capital of the Fund. Thus on redemption of holdings shareholders may not receive back the full amount invested and this will have the effect of lowering the capital value of the shareholders investment.

Shareholders should note that dividends will be paid out of capital, therefore capital may be eroded, distribution is achieved by forgoing the potential for future capital growth and this cycle may continue until all capital is depleted.

This Supplement contains information relating specifically to Davy Discovery Equity Fund (the "Fund"), a Fund of Davy Funds p.l.c. (the "Company"), an open-ended umbrella fund with segregated liability between sub-funds authorised by the Central Bank as a UCITS pursuant to the Regulations.

This Supplement forms part of and should be read in the context of and in conjunction with the Prospectus for the Company dated 17 December 2021 (the "Prospectus").

The Fund is suitable for investors who are prepared to accept a high level of volatility.

As the price of Shares in each Fund may fall as well as rise, the Company shall not be a suitable investment for an investor who cannot sustain a loss on their investment.

The Fund may invest in Financial Derivative Instruments ("FDI") for currency hedging and efficient portfolio management purposes. (See "Borrowing and Leverage; Leverage" below for details of the leverage effect of investing in FDI).

### 3 INFORMATION ON THE FUND

---

#### 3.1 Investment Objective, Investment Policies and Investment Strategy

##### (a) Investment Objective:

The investment objective of the Fund is to provide long term capital growth primarily through investment in equity securities with geographical and sector diversification.

There can be no assurance that the Fund will achieve its investment objective.

##### (b) Investment Policies:

The Fund intends to achieve its investment objective by primarily investing in equity securities issued by small to medium sized companies listed or quoted throughout the world. The Investment Manager will seek to acquire an interest in companies growing their businesses. The Fund will generally invest in companies with a market capitalisation of greater than €200 million. To provide diversification, investment will be spread across broad geographic regions and industry sectors including, among others, consumer discretionary, consumer staples, technology, materials, healthcare and industrials, environmental services.

Other investments will include commercial paper (i.e. short term paper (issued by credit institutions)), cash and cash equivalents, such as deposits with credit institutions.

The Fund may also use Financial Derivative Instruments for efficient portfolio management and/or hedging purpose as described in section 3.2 below.

Subject to the investment restrictions set out under the heading "**Investment Restrictions**" in the Prospectus, the assets of the Fund will be invested in securities that are listed or traded on permitted markets as detailed in Appendix II of the Prospectus.

In addition, the Fund may invest up to 15% of its net assets in emerging market securities.

The Fund may also, pending reinvestment, or if this is considered appropriate to the investment objective, invest on a short term basis in cash.

##### (c) Investment Strategy:

The investment approach utilises a combination of both quantitative and fundamental analysis, to filter the broader equity universe into a sub-set of stocks which represents the investable universe for the strategy. Effectively, this process results in a sub-set of stocks which broadly display the following characteristics:

1. Small to Medium-sized market capitalisation, as defined by the benchmark provider MSCI;
2. Attractive growth; and
3. Profitable outlook.

The Investment Manager undertakes fundamental research on the candidates within the investable universe. This involves industry/sector research, company analysis and valuation work. The Investment Manager looks to identify the key growth drivers of the sector and business, the competitive landscape, the strategic outlook for the company and the potential risks. Where possible, the Investment Manager will also look to meet company management, competitors, suppliers, etc. Valuation analysis is performed in order to identify a fair value for potential investments.

Following the quantitative and fundamental analysis, the Investment Manager will endeavour to construct a balanced global portfolio of stocks. The portfolio is primarily built using an active,

bottom-up approach. Geographic and sector weightings are regularly reviewed to ensure that the Fund remains suitably diversified from a risk perspective.

#### **Environmental and/or Social Characteristics of the Fund:**

The Fund will seek to avoid investment in securities of issuers which are considered by a third-party data provider to be violating fundamental humanitarian principles or violating human rights (and where the third-party data provider's assessment does not cover a particular issuer, the Investment Manager will establish on a best-efforts basis whether the issuer is in violation of these principles). Additionally, the Fund will seek to avoid investment in securities of issuers that manufacture cluster munitions or landmines or issuers that derive more than 10% of their revenue from the production of thermal coal.

#### **3.2 Use of Derivatives and Efficient Portfolio Management Techniques**

The Fund may engage in transactions in FDI for the purposes of efficient portfolio management and/or to protect against currency exchange risks within the conditions and limits laid down by the Central Bank from time to time. The Investment Manager will look to ensure that the techniques and instruments used are economically appropriate in that they will be realised in a cost-effective way. Such transactions may include foreign exchange transactions which alter the currency characteristics of transferable securities held by the Fund. Such techniques and instruments (details of which are outlined below) are options and forwards.

Warrants, share purchase rights and convertible securities will not be directly acquired but may be issued to the Fund pursuant to its investment in a particular security and, in such cases, may be retained for the purposes of efficient portfolio management and traded or exercised when considered appropriate.

##### *Options*

An option contains the right to buy or sell a specific quantity of a specific asset at a fixed price at or before a specified future date. There are two forms of options: put or call options. Put options are contracts sold for a premium that give to the buyer the right, but not the obligation, to sell to the seller a specified quantity of a particular asset (or financial instrument) at a specified price. Call options are similar contracts sold for a premium that give the buyer the right, but not the obligation, to buy from the seller a specified quantity of a particular asset (or financial instrument) at a specified price. Options may also be cash-settled. The Fund may use such instruments to hedge against market risk or gain exposure to relevant underlying equity or equity related security. Any option entered into by the Fund will be in accordance with the limits prescribed by the law.

##### *Forwards*

Forward currency contracts could be used to hedge against currency risk that has resulted from assets held by the Fund that are not in the Base Currency. The Fund, may, for example, use forward currency contracts by selling forward a foreign currency against the Base Currency to protect the Fund from foreign exchange rate risk that has arisen from holding assets in that currency.

Direct and indirect operational costs and/or fees (which do not include hidden revenue) arising from use of FDIs for EPM purposes may be deducted from the revenue delivered to the Company. Such costs and/or fees are payable to the relevant counterparty to the FDI in question and such counterparty may or may not be related to the Investment Manager or the Depositary. All revenues generated from such FDIs, net of direct and indirect operational costs, will be returned to the Company.

Collateral or margin may be passed by the Fund to a counterparty or broker in respect of OTC FDI transaction. Please refer to the section of the Prospectus entitled "**Collateral Policy**" for further details.

The use of FDI and efficient portfolio management techniques for the purposes outlined above will expose the Fund to the risks disclosed under the section of the Prospectus entitled "**Risk Factors**".

### **3.3 Borrowing and Leverage**

#### **(a) Borrowing**

The Company may only borrow on a temporary basis for the account of the Fund and the aggregate amount of such borrowings may not exceed 10% of the Net Asset Value of the Fund. In accordance with the provisions of the Regulations, the Company may charge the assets of the Fund as security for borrowings of the Fund.

#### **(b) Leverage**

The Fund may utilise FDI as referred to in the section headed "**Use of Derivatives and Efficient Portfolio Management Techniques**" above. The Fund will use the commitment approach to measure market risk and calculate its exposures. The total expected level of leverage of the Fund as a result of its investments shall not exceed 100% of its Net Asset Value.

The Investment Manager does not expect the use of FDI to significantly increase the Fund's risk profile.

The expected level of leverage range is calculated based on the sum of the absolute value of notionals of the derivatives used, in accordance with the requirements of the Central Bank. This figure does not take into account any netting and hedging arrangements that the Fund has in place at any time even though these netting and hedging arrangements are used for risk reduction purposes and is therefore not a risk-adjusted method of measuring leverage which means this figure is higher than it otherwise would be if such netting and hedging arrangements were taken into account. As these netting and hedging arrangements, if taken into account, may reduce the level of leverage, this calculation may not provide an accurate measure of the Fund's actual leverage position.

The Company on behalf of the Fund has filed with the Central Bank its risk management process which enables it to accurately measure, monitor and manage the various risks associated with the use of FDI. Any FDI not included in the risk management process will not be utilised until such time as a revised submission has been provided to the Central Bank. The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.

### **3.4 Investment Restrictions**

Investors must note that the Company and the Fund adhere to the restrictions and requirements set out under the Regulations, as may be amended from time to time. These are set out in Appendix I to the Prospectus.

Notwithstanding this, the Fund will not invest more than 10% of its Net Asset Value in other UCITS or CIS in aggregate.

### **3.5 Profile of a Typical Investor**

A typical investor will be seeking to achieve a return on their investment in the medium to long term.

### 3.6 Risk Factors

Investors should read and consider the sections of the Prospectus entitled "**RISK FACTORS**" and "**SFDR-related Disclosures (a) Sustainability Risk**" before investing in the Fund. However, not all of the risks disclosed in the **RISK FACTORS** section of the Prospectus will be material to an investment in this particular Fund.

In addition to the above referenced risks, investors should also consider the particular implications of the following risks that are relevant to an investment in the Fund. Fees and expenses of the Fund may be charged to the capital of the Fund. Thus, on redemptions of holdings shareholders may not receive back the full amount invested and this will have the effect of lowering the capital value of their investment. There is a greater risk therefore that capital may be eroded and "income" will be achieved by foregoing the potential for future capital growth of your investment and the value of future returns may also be diminished. Investors should note however that distributions made during the life of the Fund are a form of capital reimbursement.

The Fund may charge fees and expenses to capital where insufficient income has been generated by the Fund to cover the fees and expenses. There is a greater risk therefore that capital may be eroded and "income" will be achieved by foregoing the potential for future capital growth of your investment.

The risks described in the Prospectus should not be considered to be an exhaustive list of the risks which potential investors should consider before investing in the Fund. Potential investors should be aware that an investment in the Fund may be exposed to other risks from time to time.

Class U Accumulating Shares do not bear any Investment Management Fees or performance fees and are restricted to Davy Group personnel. Shares of any Class cannot be switched for Shares of Class U Accumulating.

\*The Initial Offer Period may be shortened or extended by the Directors. The Central Bank will be notified in advance of any such shortening or extension if subscriptions for Shares have been received and otherwise shall be notified subsequently, on an annual basis.

\*\*Subject to the discretion of the Directors (or their delegate) in each case to allow lesser amounts.

\*\*\*The Company may (but is not obliged to) enter into certain currency related transactions (through the use of FDI as disclosed above in Section 3.2 entitled "**Use of Derivatives and Efficient Portfolio Management Techniques**") in order to hedge the currency exposure of the Classes denominated in a currency other than the Base Currency, as described under the heading "**Hedged Classes**" in the Prospectus. In the case of Classes that are denominated in a currency other than the Base Currency and are not identified as hedged the value of the Shares in the relevant Class will be subject to exchange rate risk in relation to the Base Currency.

Applications for Shares and/or applications for the redemption of Shares along with all required anti-money laundering documentation must be received by the Dealing Deadline. Applications for Shares will only be accepted on a cleared funds basis in the Base Currency.

Applications received after the Dealing Deadline for the relevant Dealing Day shall be deemed to have been received by the next Dealing Deadline, save in exceptional circumstances where the Directors may in their absolute discretion (reasons to be documented) determine and provided the Applications are received before the Valuation Point for the relevant Dealing Day. Repurchase requests received after the Dealing Deadline shall be treated as having been received by the following Dealing Deadline, save in exceptional circumstances where the Directors may in their absolute discretion (reasons to be documented) determine and provided they are received before the Valuation Point for the relevant Dealing Day.

Subscription Settlement Date: Subscription monies should be paid to the account specified in the Application Form (or such other account specified by the Administrator) so as to be received by no later than three Business Days after the relevant Dealing Day. If payment in full and/or a properly completed Application Form along with all required anti-money laundering documentation have not been received by the relevant times stipulated above, the application may be refused.

Redemption Settlement Date: Payment of Repurchase Proceeds will be made by electronic transfer to the account of the redeeming Shareholder at the risk and expense of the Shareholder normally within three Business Days of the relevant Dealing Day and, in all cases, will be paid

within ten Business Days of the Dealing Deadline for the relevant Dealing Day provided that all the required documentation has been furnished to and received by the Administrator.

### 3.8 Exchange of Shares

Shareholders may exchange between similar Classes of Shares in accordance with the provisions set out under the heading "**Exchange of Shares**" in the Prospectus. The Directors can refuse an application to exchange between Classes of Shares in accordance with the provisions set out under the heading "**Exchange of Shares**".

### 3.9 Dividend Policy

For the Class A Accumulating Shares, the Class B Accumulating Shares, the Class C Accumulating Shares, the Class D Accumulating Shares, the Class E Accumulating Shares, the Class F Accumulating Shares, the Class G Accumulating Shares, the Class H Accumulating Shares, the Class I Accumulating Shares, the Class J Accumulating Shares, the Class K Accumulating Shares, the Class L Accumulating Shares, the Class M Accumulating Shares, the Class N Accumulating Shares, the Class O Accumulating Shares, the Class P Accumulating Shares, the Class R Accumulating Shares, the Class S Accumulating Shares, the Class T Accumulating Shares, the Class U Accumulating Shares, the Class V Accumulating Shares and the Class AA Accumulating Shares (the "**Accumulating Share Classes**") (and indicated as such in the table in the section above titled "**Key Information for Buying and Selling Shares**"), it is the present intention of the Directors not to declare or pay dividends, and any income or gains earned by the Fund and these Share Classes, will be reinvested and reflected in the value of the Shares.

For the Class A Distributing Shares, the Class B Distributing Shares, the Class Q Distributing Shares, the Class R Distributing Shares, the Class S Distributing Shares, the Class T Distributing Shares, the Class V Distributing Shares and the Class AA Distributing Shares (the "**Distributing Share Classes**") (and indicated as such in the table in the section above entitled "**Key Information for Buying and Selling Shares**"), subject to net income being available for distribution, the Directors intend to declare dividends on or before the 14<sup>th</sup> Business Day following the Distribution Date to all Shareholders entered on the register of Shareholders at the close of business on the Business Day immediately preceding the Distribution Date and therefore applicants for Shares to be dealt on or after the Distribution Date will not be entitled to the distribution paid in respect of such Distribution Date but Shareholders seeking to repurchase their Shares on or after the Distribution Date will receive the distribution paid in respect of such Distribution Date.

The Directors reserve the right to increase or decrease the frequency of dividend payments, if any, at their discretion for Distributing Share Classes. In the event of a change of policy full details will be disclosed in an updated Supplement and Shareholders will be notified in advance.

Under the Constitution, dividends may be paid out of the profits, being (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the Fund; or (iii) out of capital.

Dividends are paid out of capital to allow the provision of income to Shareholders of the Distributing Share Classes, in the event of insufficient income being in the Fund for a particular period.

Dividends will be paid to Shareholders by electronic transfer to the relevant Shareholder's bank account of record on the initial Application Form in the currency of denomination of the relevant Distributing Share Classes at the expense of the payee and within such timeframe as discussed above. The net income available for distribution in respect of the relevant Share Class will be determined in accordance with the relevant law and generally accepted accounting principles consistently applied.

Please also refer to the section in the Prospectus entitled "**Dividend Policy**".
