

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0%
Exit charge	0%
These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.	
Charges taken from the Fund over a year	
Ongoing charges	0.48%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The Directors may impose an anti-dilution levy in the case of net subscriptions and/or net repurchases on a transaction basis as a percentage adjustment on the value of the relevant subscriptions or repurchases to reflect the impact of other dealing costs and to preserve the value of the underlying assets.

The ongoing charges figure shown here is based on the expense for the year ending 31 December 2021. The ongoing charges figure may vary from year to year and excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

For more information about charges, please refer to prospectus and the Fund's supplement which are available on www.davygfm.com/funds-factsheets/asset-management.

Past Performance

Please be aware that past performance is not a reliable indicator of future results. The Davy Low Carbon Equity Fund was approved on 19 December 2017.

Past Performance has been calculated in Euros. In the circumstances, the past performance data included in this document is believed to be an appropriate reference for investors.

The ongoing charges are included in the calculation of past performance and the entry/exit figures are excluded from the calculation of past performance.
