REGULATOR:	Central Bank of Ireland
DOCUMENT VALID AS AT:	07/04/2022

WHAT IS THIS PRODUCT?

TYPE:	This Product is an Alternative Investment Fund
OBJECTIVES:	The investment objective of Alpha Elite I (the "Fund") is to provide investors with long-term capital appreciation by optimising the relationship between risk and return through investment mainly in Investment Funds pursuing alternative investment strategies. The Investment Manager intends to pursue the investment objective of the Fund by investing in Investment Funds managed by world class investment managers. To achieve its objective, the Fund will invest in a portfolio of Investment Funds that the Investment Manager considers to be the most appropriate in various sectors and markets. The strategies employed by these Investment Funds (certain of which may be established as exchange-traded funds) may include (but are not limited to) equity long/short, equity market neutral, event driven, relative value, merger arbitrage and distressed investments strategies.
INTENDED RETAIL INVESTOR:	The Product is targeted at Eligible Counterparties, Professional Clients and Retails Clients (only where retail clients meet the Irish Qualifying Investor criteria). The investor's objective for this investment should be aligned with that of the Product as outlined above.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified the risk classes of the underlying investment strategies as ranging from 4 out of 7, which is a medium risk class.

Please note the Sub-Fund is subject to market fluctuations. There is no assurance that any appreciation in the value of investments will occur or that the investment objective of this Sub-Fund will be achieved. The SRI classification is based on the Sub-Fund's liquidity profile & diversification.

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. The underlying funds may include illiquid assets such as alternative funds, real estate funds and/or non-quoted assets. These assets incur additional risks which are not considered in the indicator shown above when they do not represent a significant part of the underlying funds. These risks are that these assets could not be sold or not sold at the desired time and / or lead to significant losses. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

Be aware of currency risk. The underlying funds may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

INVESTMENT 10000 EUR

SURVIVAL SCENARIOS		1 YEAR	3 YEARS	5 YEARS (RECOMMENDED HOLDING PERIOD)
STRESS SCENARIO	What might you get back after costs	6 386.35 EUR	6 769.53 EUR	6 066.8 EUR
	Average return each year	-36.14 %	-12.19 %	-9.51 %
UNFAVOURABLE SCENARIO	What might you get back after costs	9 107.75 EUR	9 142.17 EUR	9 395.26 EUR
	Average return each year	-8.92%	-2.95%	-1.24%
MODERATE SCENARIO	What might you get back after costs	10 129.26 EUR	10 956.77 EUR	11 851.87 EUR
	Average return each year	1.29%	3.09%	3.46%
FAVOURABLE SCENARIO	What might you get back after costs	11 116.93 EUR	12 958.54 EUR	14 753.85 EUR
	Average return each year	11.17%	9.02%	8.09%

This table shows the money you could get back over the recommended holding period, under different scenarios, assuming that you invest 10000 EUR.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment.

WHAT HAPPENS IF J&E DAVY IS UNABLE TO PAY OUT?

You may face a financial loss should the Manufacturer or depositary, Northern Trust Fiduciary Services (Ireland) Limited, default on their obligations. There is a compensation fund available for investors under the Investor Compensation Act, 1998 (the "Act") where the criteria for payment of compensation under the Act have been fulfilled. Further details are available from the Manufacturer.

WHAT ARE THE COSTS?

COSTS OVER TIME

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest 10,000 EUR. The figures are estimates and may change in the future.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

INVESTMENT 10000 EUR	IF YOU CASH IN AFTER 1 YEAR	IF YOU CASH IN AFTER 3 YEARS	IF YOU CASH IN AFTER 5 YEARS
Total costs	900.23 EUR	2 352.66 EUR	4 208.76 EUR
Impact on return (RIY) per year	9 %	6.91 %	6.48 %

COMPOSITION OF COSTS

The table below shows:

* The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.

* What the different cost categories mean.

THIS TABLE SHOWS THE IMPACT ON RETURN PER YEAR

ONE-OFF COSTS	ENTRY COSTS	3.00 %	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less. The impact of costs are already included in the price. This includes the costs of distribution of your product.
	EXIT COSTS	0.00 %	The impact of the costs of exiting your investment when it matures.
ONGOING COSTS	PORTFOLIO TRANSACTION COSTS	0.00 %	The impact of the costs of us buying and selling underlying investments for the product.
	OTHER ONGOING COSTS	2.35 %	The impact of the costs incurred in the management and operation of the product.
INCIDENTAL COSTS	PERFORMANCE FEE	3.04 %	The calculated performance fee referenced relates to the underlying funds only with associated performance fees.
	CARRIED INTERESTS	0.00 %	The Product does not pay carried Interest.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

RECOMMENDED MINIMUM HOLDING PERIOD: 5 YEARS

The Investment Manager intends to provide liquidity from the fund on a quarterly basis. Given the expected returns profile of the fund, investors are not recommended to hold the fund for periods of less than 5 years. In certain circumstances, liquidity may be suspended.
