Our property services

Sourcing and purchasing property

We have extensive expertise in acquiring, selling and refurbishing properties and great contacts with high end estate agents and property finders. We take care of every detail so the client only needs to give final approval.

Property rental

For property owners outside of the UK or who are short of time, we will handle the relationship with your tenant throughout the tenancy. We'll take care of maintenance and repairs, renew safety certificates, arranging for properties to be cleaned and dressed prior to potential tenant viewings – and everything in between.

Property management

We will take care of all household administration. We can arrange payment of household invoices via third party authority on an expenses account and ensure that all invoices, including utility bills, are dealt with. We also ensure that insurance policies, TV licenses and utilities are maintained and renewed annually.

Other services

Lifestyle

We cover all lifestyle needs, from arranging chauffeurs, chefs and personal trainers to theatre tickets and restaurant reservations. We specialize in exclusive event access and in meeting extraordinary requests.

Education

We can arrange private tutors, music lessons, summer camps, coursework and dissertation tutoring. Our education consultants are on hand to assist with university applications and interviews and placement in a desired school or university.

Business

We have excellent connections with specialist recruitment companies and can assist with clients' staffing requirements, no matter how bespoke.

Personal assistance

We can assist with personal banking and with establishing banking arrangements, as well as making referrals to relevant professional advisers. We can also assist with any medical and health appointments.

Travel

We can take care of all travel needs either for business or pleasure, from planning and arranging detailed travel itineraries to yacht and aircraft charters.
