

# Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

AIM ESG Impact Global Bond Fund (the "Fund"): Class I JPY Hedged Shares

Skyline Umbrella Fund ICAV (the "ICAV")

ISIN: IE00BN76Y878

The Fund is managed by IQ EQ Fund Management (Ireland) Limited (the **Manager**)

## Objectives and Investment Policy

The Fund seeks to create a positive environmental and social impact, whilst targeting a total return above Bloomberg Barclays Global Aggregate EX-JYP Index (the "**Benchmark**") performance. This is calculated after fees, over rolling three-year periods in support of the UN Sustainable Development Goals and the global COP 21 Climate Change Accord.

The Fund will invest in bonds, other fixed or floating rate debt securities and short-term debt securities. The Fund will primarily invest in a broad range of fixed income securities, including, corporate bonds, sovereign bonds, governmental agency bonds and supra-national bonds, from both developed (excluding Japan) and emerging market countries (including Russia). The Fund may invest up to 20% of its Net Asset Value ("NAV") in emerging market bonds including Russian bonds.

The Fund's investment portfolio may include investment of up to 20% of the NAV in cash and cash equivalents (including money market instruments, short term money market funds, certificates of deposit, floating rate notes and fixed or variable rate commercial paper listed or traded on exchanges and in cash deposits denominated in such currency or currencies as the Investment Manager may determine).

The Fund will also invest in investment grade securities, i.e. debt securities with an investment rating level of BBB- or better from Standard & Poor's Corporation or Baa3 or better from Moody's Corporation ("Investment Grade"). The Fund will not invest more than 10% of the NAV in below Investment Grade securities.

The Fund may also invest in financial derivative instruments ("FDIs"), including foreign exchange forwards and futures, as described in the "Financial Derivative Instruments" section of the Fund Supplement.

The Fund may deviate from its normal exposures outlined above; however, it is anticipated that any such deviations from its normal exposures shall be for short periods only.

The Fund is actively managed in reference to the Benchmark as its performance is compared to the Benchmark in marketing materials and the Fund's performance is measured against the Benchmark for performance

comparison purposes only. Investments in the portfolio are not specifically selected from the constituents of the Benchmark, hence the Fund's investment policy is in no way constrained and the degree of deviation from the Benchmark may be significant.

The Fund will seek to invest in securities determined to be generating a positive environmental and/or social impact as identified by the Investment Manager. The Investment Manager fully integrates sustainability, financial and economic analysis into its investment process.

In selecting investments for the Fund, the Investment Manager uses its own proprietary SPECTRUM analysis, which provides a framework for considering ESG factors.

Each investment will be assessed to ensure it meets SPECTRUM criteria and this analysis is confirmed by the Investment Manager's verification committee

The SPECTRUM analysis is detailed within the Fund Supplement.

Shares in the Fund can be bought and sold on any business day in Ireland and the United Kingdom.

This share class will not make any dividend contributions.

This share class will be hedged against JPY exchange rate fluctuation risks between the JPY currency and the other currency weightings in the Fund. The financial instruments used for such strategies shall be assets/liabilities of the Fund as a whole but will be attributable to this share class and the gains/losses on, and the costs of, the relevant financial instruments will accrue solely to this share class.

Shareholders are exposed to a risk that hedging transactions undertaken in one share class may impact negatively on the Net Asset Value of another share class.

Please refer to the Prospectus and Fund Supplement for more detailed information.

## Risk and Reward Profile

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'. With a category 4 fund, the risk of losing your money is higher but there is also a chance of making higher gains.
- The Fund is in category 4 because of the above average range and frequency of price movements of the underlying investments

The indicator does not take account of the following risks of investing in the Fund:

- Although the Fund will strive to reduce counterparty credit risk, there is no assurance that a counterparty will not default or that the Fund will not sustain losses as a result.
- The Fund may at times invest in securities that are inherently less liquid and more difficult to sell.
- The Fund may be exposed to the creditworthiness and performance of one or more counterparties.
- Investing in emerging markets involves a greater degree of risk than investments in more developed European countries.
- The Fund's success may be affected by general economic and market conditions that could adversely impact the Fund's profitability or result in losses.

For a full list of possible risk factors please see section entitled "Risk Factors" set on in the Prospectus and Fund Supplement.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	No Charge
Exit charge	No Charge
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	0.40 %
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases, you may pay less - you can find this out from your financial advisor.

The ongoing charges figure is based on the expenses for the financial year ended 30 April 2021. The ongoing charges are the running costs of the Fund, including distribution and marketing, but exclude transaction costs and performance fees. Ongoing charges will vary from year to year.

For more information about these charges please see the Prospectus and the Supplement to the Prospectus covering this Fund.
