Domicile country:	Ireland

Document valid as at: 31 October 2023

WHAT IS THIS PRODUCT?

Type:

AIF

Term:

This product is not subject to any fixed term.

Objectives:

The investment objective of Alpha Elite I (the "Fund") is to provide investors with long-term capital appreciation by optimising the relationship between risk and return through investment mainly in Investment Funds pursuing alternative investment strategies.

The Investment Manager intends to pursue the investment objective of the Fund by investing in Investment Funds managed by world class investment managers. To achieve its objective, the Fund will invest in a portfolio of Investment Funds that the Investment Manager considers to be the most appropriate in various sectors and markets. The strategies employed by these Investment Funds (certain of which may be established as exchange-traded funds) may include (but are not limited to) equity long/short, equity market neutral, event driven, relative value, merger arbitrage and distressed investments strategies.

Intended Retail Investor:

The Product is targeted at Eligible Counterparties, Professional Clients and Retail Clients (only where retail clients meet the Irish Qualifying Investor criteria). The investor's objective for this investment should be aligned with that of the Product as outlined above.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early.

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended minimum holding period: 5 years Investment 10 000 EUR			
Survival Scenarios Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Stress scenario	What might you get back after costs	6 300 EUR	6 030 EUR
	Average return each year	-36.97 %	- 9.61 %
Unfavourable scenario	What might you get back after costs	8 650 EUR	9 480 EUR
	Average return each year	-13.55 %	- 1.06 %
Moderate scenario	What might you get back after costs	10 200 EUR	12 550 EUR
	Average return each year	2.03 %	4.65 %
Favourable scenario	What might you get back after costs	12 920 EUR	15 370 EUR
	Average return each year	29.2 %	8.97 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 11/2021 and 10/2023.

Moderate: This type of scenario occurred for an investment between 02/2015 and 01/2020.

Favourable: This type of scenario occurred for an investment between 05/2014 and 04/2019.

WHAT HAPPENS IF J&E DAVY IS UNABLE TO PAY OUT?

The Fund is responsible for paying redemptions and any other payment obligations due to investors. The Manager is not responsible for meeting the obligations of the Fund to investors from its own assets. The Fund's assets are safeguarded by the Depositary in accordance with applicable law. If the Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default (or that of any custody delegate).

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment 10 000 EUR	If you exit after 1 year	If you exit after 5 years
Total costs	881 EUR	4 396 EUR
Annual Cost Impact*	8.81 %	6.48 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.12% before costs and 4.65% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.00% This includes distribution costs. This is the maximum you will be charged. The person selling you this product will inform you of the actual charge.	300 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	N/A
Ongoing costs		
Management fees and other administrative or operating costs	2.27% The ongoing charges are the running costs of the Fund, including distribution and marketing, but exclude transaction costs and performance fees.	259 EUR
Portfolio transaction costs	0.01% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	1 EUR
Incidental costs taken under specific conditions		
Performance Fee	There is no performance fee for this product. The calculated performance fee referenced relates to the underlying funds only with associated performance fees.	321 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended minimum holding period: 5 years

The recommended holding period for the Fund is 5 years. The Fund is a limited liquidity Fund and the Directors of the Fund, at their discretion, may provide liquidity from the fund on a quarterly basis. Given the expected returns profile of the fund, investors are not recommended to hold the fund for periods of less than 5 years. In certain circumstances, liquidity may be limited where redemptions exceed 25% of the Net Asset Value, and an anti-dilution levy may be applied upon redemption.

HOW CAN I COMPLAIN?

In the case of any unexpected problems in the understanding, trading or handling of the product, please feel free to directly contact IQ-EQ at the details below.

Website: www.davy.ie
