### WHAT IS THIS PRODUCT?

#### Type:

Qualifying Investor Alternative Investment Fund

#### Term:

This product is not subject to any fixed term.

#### Objectives:

The objective of the Davy Irish Property Fund is to achieve stable income and capital appreciation primarily through long-term investment in Irish Property. Investors should note, however, that there is no guarantee that this objective will be achieved. The objective will be achieved by investing in commercial Property located in Ireland. It is not anticipated that it invest in Property situated outside of Ireland. It is anticipated that the Properties may include investment, infrastructural, development, retail, commercial, leisure, office, residential, industrial or other such opportunities without limitation that may from time to time assist in potentially generating capital appreciation, income or diversification.

#### Intended Retail Investor:

The Product is targeted at Eligible Counterparties, Professional Clients and Retail Clients. The minimum regulatory subscription amount by each investor will be at least €100,000. The investor's objective for this investment should be aligned with that of the Product as outlined above.

### WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

**The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early.**

#### Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

**We have classified this product as class 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the fund to pay you.**

**Be aware of currency risk.** You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

#### Performance scenarios

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.**

<b>Recommended minimum holding period: 5 years</b>			
<b>Investment 10 000 EUR</b>			
<b>Survival Scenarios</b>		<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b> (recommended holding period)

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 03/2020 and 05/2023.

Moderate: This type of scenario occurred for an investment between 12/2015 and 11/2020.

Favourable: This type of scenario occurred for an investment between 07/2013 and 06/2018.

## WHAT HAPPENS IF J&E DAVY IS UNABLE TO PAY OUT?

The Fund is responsible for paying redemptions and any other payment obligations due to investors. The Manager is not responsible for meeting the obligations of the Fund to investors from its own assets. The Fund's assets are safeguarded by the Depositary in accordance with applicable law. If the Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default (or that of any custody delegate).

## WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

<b>Investment 10 000 EUR</b>	<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
<b>Total costs</b>	<b>235 EUR</b>	<b>1 413 EUR</b>
Annual Cost Impact*	2.35 %	2.42 %

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.16% before costs and 2.74% after costs.

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

### Recommended minimum holding period: 5 years

The recommended holding period for the Fund is 5 Years. The Fund is open-ended fund with limited liquidity and, accordingly, limitations may be placed on the repurchase of Units. Redemptions will be processed on each Redemption Date and it is expected that a Unit Holder's redemption request will be dealt with fully within 3 years from the Effective Date of the redemption. In certain circumstances an anti-dilution levy may be applied upon redemption.
