

Our offering in France

Technical expertise. Client satisfaction.

The seeds of our business in France were sown over 20 years ago when entrepreneurs established 3 separate forward-thinking firms that are preeminent in their area of specialism across funds, fiducie and corporates. IQ-EQ has brought those businesses together to provide a unique offering in the French market combined with additional services IQ-EQ can offer private and institutional clients and its focus on providing proprietary technology solutions such as IQ-EQ Cosmos, a portfolio monitoring platform and Maxcomply™, a proprietary risk and compliance SaaS platform.

reporting and transparency requirements from regulators and investors.
