SUPPLEMENT

Davy SRI Cautious Growth Fund

Dated 28 June 2024

1 IMPORTANT INFORMATION

The Directors (whose names appear under the heading "Management of the Company – Directors" in the Prospectus), accept responsibility for the information contained in this Supplement and the Prospectus. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement and in the Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information. The Directors accept responsibility accordingly.

Shareholders should note that all the fees and expenses of the Fund may be charged to the capital of the Fund. Thus on redemption of holdings shareholders may not receive back the full amount invested and this will have the effect of lowering the capital value of the Shareholders investment.

Shareholders should note that dividends will be paid out of capital, therefore capital may be eroded, distribution is achieved by forgoing the potential for future capital growth and this cycle may continue until all capital is depleted.

This Supplement contains information relating specifically to Davy SRI Cautious Growth Fund (the "**Fund**"), a Fund of Davy Funds p.l.c. (the "**Company**"), an open-ended umbrella fund with segregated liability between sub-funds authorised by the Central Bank as a UCITS pursuant to the Regulations.

The Fund may invest more than 20% of its Net Asset Value in other collective investment schemes ("**CIS**").

The Fund is actively managed meaning that the Investment Manager has discretion over the composition of the Fund's portfolio subject to its stated investment objective and policies as set out in this Supplement.

This Supplement forms part of and should be read in the context of and in conjunction with the Prospectus for the Company dated 28 June 2024 (the "Prospectus").

The Fund is suitable for investors who are prepared to accept a high level of volatility.

As the price of Shares in each Fund may fall as well as rise, the Company shall not be a suitable investment for an investor who cannot sustain a loss on their investment.

The Fund may invest in Financial Derivative Instruments ("**FDIs**") for currency hedging and efficient portfolio management purposes. (See "**Borrowing and Leverage**" below for details of the leverage effect of investing in **FDIs**).

2 DEFINITIONS

Valuation Point means the close of business in the relevant market where assets are listed or traded on the first Business Day immediately preceding the relevant Dealing Day by reference to which the Net Asset Value per Share of the Fund is determined provided such point will in no case precede the close of business in the relevant market that closes first on the relevant Business Day.

All other defined terms used in this Supplement shall have the same meaning as in the Prospectus.

3 INFORMATION ON THE FUND

3.1 Investment Objective, Investment Policies and Investment Strategy

(a) Investment Objective:

The investment objective of the Fund is to provide capital growth while targeting a relatively low level of portfolio volatility of between 30% to 50% of global equity market volatility over rolling three-year periods. The Fund intends to achieve its investment objective by gaining exposure primarily to a globally diversified portfolio of equities, bonds and alternative assets. There can be no assurance that the Fund will achieve its investment objective.

(b) Investment Policies:

The Fund intends to achieve its investment objective by gaining exposure primarily to a globally diversified portfolio of authorised open-ended UCITS and alternative investment funds ("**CIS**"), which may be actively managed CIS or passively managed CIS (i.e. exchange-traded funds (ETFs)). In respect of the investment in such CIS, the Fund will at all times comply with the provisions of the Regulations and the Central Bank Rules in respect of any investments in the CIS. The CIS that the Fund may invest in will be authorised as UCITS or alternative investment funds, consist of regulated schemes and will comply with the provisions of the Central Bank Guidance on UCITS Acceptable Investments in Other Investment Funds.

The CIS will invest principally in equity securities and fixed income securities (which may include fixed and floating Investment Grade or non-Investment Grade government and corporate bonds) on a global basis. The CIS will typically be domiciled in Ireland, the United Kingdom and Luxembourg.

The Fund may also invest in CIS with exposure to the following asset classes: money market instruments, property, commodities, absolute return funds, managed futures and actively managed UCITS which pursue hedge fund-style strategies (such as long/short equity strategies).

The Fund will limit its exposure to equity securities to 55% of its Net Asset Value and may gain exposure to fixed income securities of up to 85% of its Net Asset Value. The Fund's exposure to alternative assets, as described in the paragraph immediately above, will be limited to 35% of its Net Asset Value.

The Fund promotes environmental and/or social characteristics in accordance with Article 8 of the SFDR. Information in relation to the sustainability-related features of the Fund's investments is set out in Appendix I to this Supplement, which Appendix details the environmental and/or social characteristics of the Fund.

The asset allocation strategy may be altered by the Investment Manager on a monthly basis or more frequently to take into account changes in the expected risk and correlations of the underlying asset classes.

While the Fund is a fund of funds, it may also invest, in direct securities for short term liquidity or defensive purposes should the Fund require such liquidity or protection against significant market movements or for tactical purposes consistent with the investment policy of the Fund. Such securities can include direct cash, deposits, money market instruments including certificates of deposit, commercial paper and fixed and floating Investment Grade government and corporate bonds, listed structured products such as listed certificates and listed notes, and transferable securities that are listed or traded on a recognised exchange set out in Appendix II of the Prospectus and subject to the investment restrictions set out under the heading "**Investment Restrictions**" in the Prospectus.

The Fund may also use FDIs for efficient portfolio management and currency hedging purposes as described in section 3.2 below.

(c) **Investment Strategy:**

The investment approach involves a two-stage process which aims to generate returns consistent with the investment objective of the Fund.

The first stage of the investment process is to determine the asset allocation. The Investment Manager will determine an appropriate asset allocation through rigorous analysis of asset class characteristics and risk return profiles (which may involve a range of approaches such as forecasting, stress testing, regional and sectoral analysis, as appropriate to achieve this).

The second stage of the investment process will be the selection of the underlying CIS through in depth qualitative reviews of fund managers and their investment process and quantitative analysis of their expected future risk / return profile to identify the most appropriate CIS, which in conjunction with the various other underlying funds, the Investment Manager believes is most closely aligned to the objective of the Fund. Through this analysis, the CIS are chosen by the Investment Manager on the basis of their investment strategies, trading techniques and overall performance record as against both their peer group and relative benchmark.

In selecting CIS for the Fund the Investment Manager regards an understanding of the underlying fund managers' investment processes and methodologies as fundamental. An assessment of the quality of an investment organisation and the resources which it applies to investment management are also important factors in the Investment Manager's research process when selecting CIS. Further details are set out in Appendix I hereto.

3.2 Use of Derivatives and Efficient Portfolio Management Techniques

In addition, the Fund may engage in transactions in FDIs for currency hedging and efficient portfolio management purposes and/or to protect against currency exchange risks within the conditions and limits laid down by the Central Bank from time to time. The Investment Manager will look to ensure that the techniques and instruments used are economically appropriate in that they will be realised in a cost-effective way. Such transactions may include foreign exchange transactions which alter the currency characteristics of transferable securities held by the Fund. Such techniques and instruments (details of which are outlined below) are options and forward foreign exchange contracts.

Options

An option contains the right to buy or sell a specific quantity of a specific asset at a fixed price at or before a specified future date. There are two forms of options: put or call options. Put options are contracts sold for a premium that give to the buyer the right, but not the obligation, to sell to the seller a specified quantity of a particular asset (or financial instrument) at a specified price. Call options are similar contracts sold for a premium that give the buyer the right, but not the obligation, to buy from the seller a specified quantity of a particular asset (or financial instrument) at a specified price. Options may also be cash-settled. The Fund may use such instruments to hedge against market risk or gain exposure to relevant underlying equity. Any option entered into by the Fund will be in accordance with the limits prescribed by the law.

Forwards

Forward currency contracts could be used to hedge against currency risk that has resulted from assets held by the Fund that are not in the Base Currency. The Fund, may, for example, use forward currency contracts by selling forward a foreign currency against the Base Currency to protect the Fund from foreign exchange rate risk that has arisen from holding assets in that currency.

Direct and indirect operational costs and/or fees (which do not include hidden revenue) arising from use of FDIs for efficient portfolio management purposes may be deducted from the revenue delivered to the Company. Such costs and/or fees are payable to the relevant counterparty to the FDI in question and such counterparty may or may not be related to the Investment Manager or the Depositary. All revenues generated from such FDIs, net of direct and indirect operational costs, will be returned to the Company.

Collateral or margin may be passed by the Fund to a counterparty or broker in respect of OTC FDI transaction. Please refer to the section of the Prospectus entitled "**Collateral Policy**" for further details.

The use of FDIs and efficient portfolio management techniques for the purposes outlined above will expose the Fund to the risks disclosed under the section of the Prospectus entitled "**Risk Factors**".

3.3 **Borrowing and Leverage**

(a) **Borrowing**

The Company may only borrow on a temporary basis for the account of the Fund and the aggregate amount of such borrowings may not exceed 10% of the Net Asset Value of the Fund. In accordance with the provisions of the Regulations, the Company may charge the assets of the Fund as security for borrowings of the Fund.

(b) **Leverage**

The Fund may utilise FDIs as referred to in the section headed "**Use of Derivatives and Efficient Portfolio Management Techniques**" above. The Fund will use the commitment approach to measure market risk and calculate its exposures. Accordingly, global exposure and leverage as a result of its investment in FDIs as detailed above shall not exceed 100% of its Net Asset Value of the Fund.

The Investment Manager does not expect the use of FDIs to significantly increase the Fund's risk profile.

The Company on behalf of the Fund has filed with the Central Bank its risk management process which enables it to accurately measure, monitor and manage the various risks associated with the use of FDIs. Any FDIs not included in the risk management process will not be utilised until such time as a revised submission has been provided to the Central Bank. The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.

3.4 **Investment Restrictions**

Investors must note that the Company and the Fund adhere to the restrictions and requirements set out under the Regulations, as may be amended from time to time. These are set out in Appendix I to the Prospectus.

In particular, please note the following restrictions and requirements:

3.4.1 When the Fund invests in the units of other CIS that are managed, directly or by delegation, by the Investment Manager or by any other company with which the Investment Manager is linked by common management or control, or by a substantial direct or indirect holding, the Investment Manager or other company may not charge subscription, conversion or redemption fees on account of the Fund's investment in the units of such other CIS.

3.4.2 Where a commission (including a rebated commission) is received by the Investment Manager by virtue of an investment in the units of another CIS, this commission must be paid into the property of the Fund.

3.5 Profile of a Typical Investor

A typical investor will be seeking to achieve a return on their investment in the medium to long term.

3.6 Risk Factors

Investors should read and consider the section of the Prospectus entitled "**Risk Factors**" and "**SFDR-related Disclosures (a) Sustainability Risk**" before investing in the Fund. However, not all of the risks disclosed in the Risk Factors section of the Prospectus will be material to an investment in this particular Fund.

In addition to the above referenced risks, investors should also consider the particular implications of the following risks that are relevant to an investment in the Fund:

- (a) The Investment Manager seeks to constantly review the CIS in which the Fund may invest. However, investment decisions are made independently at the level of the underlying CIS and are solely subject to the restrictions applicable to those underlying CIS. The Investment Manager or the Depositary are not liable for compliance with such restrictions.
- (b) It is possible that some investment managers of the underlying CIS will take positions in the same security or in issues of the same industry or country or in the same currency at the same time. Consequently, it is possible that one CIS may purchase an instrument at the same time as another CIS decides to sell it. There is no guarantee that the selection of the underlying CIS will actually result in diversification of investment styles and that the positions taken by the underlying CIS will always be consistent.
- (c) Fees and expenses of the Fund may be charged to the capital of the Fund. Thus, on redemptions of holdings Shareholders may not receive back the full amount invested and this will have the effect of lowering the capital value of their investment. There is a greater risk therefore that capital may be eroded and "income" will be achieved by foregoing the potential for future capital growth of your investment and the value of future returns may also be diminished. Investors should note however that distributions made during the life of the Fund are a form of capital reimbursement. The Fund may charge fees and expenses to capital to preserve income and to maximise the payment of dividends to Shareholders.

The risks described in the Prospectus and this Supplement should not be considered to be an exhaustive list of the risks which potential investors should consider before investing in the Fund. Potential investors should be aware that an investment in the Fund may be exposed to other risks from time to time.

3.7 Key Information for Buying and Selling Shares

Details of all share classes are set out in the table below:

Class A Accumulating Shares, Class A Distributing Shares, Class B Accumulating Shares, Class B Distributing Shares, Class C Accumulating Shares, Class C Distributing Shares Class D Accumulating Shares, Class D Distributing Shares, Class E Accumulating Shares and Class E Distributing Shares are available to investors who have entered into Client Agreements in relation to discretionary, advisory, or execution only services pursuant to which the investors may separately agree to pay a fee to the Investment Manager, or its affiliate, pursuant to the terms of the relevant Client Agreement.

Class F Accumulating Shares and Class F Distributing Shares are available to investors who have entered into Client Agreements in relation to discretionary or advisory services pursuant to which the investors may separately agree to pay a fee to the Investment Manager pursuant to the terms of the relevant Client Agreement. Such fees will be due solely to the Investment Manager for provision of investment management services.

The Investment Manager may reject at its discretion any application for Shares in the Fund and may also, at its discretion, redesignate/switch a Shareholder from one Class to another in circumstances where the Shareholder no longer belongs to the category of investors to which that Class is available. The Investment Manager will not charge fees for redesignation/switching undertaken in such circumstances.

*The Initial Offer Period may be shortened or extended by the Directors. The Central Bank will be notified in advance of any such shortening or extension if subscriptions for Shares have been received and otherwise shall be notified subsequently, on an annual basis.

**Subject to the discretion of the Directors (or their delegate) in each case to allow lesser amounts.

Applications for Shares and/or applications for the redemption of Shares along with all required anti-money laundering documentation must be received by the Dealing Deadline.

Applications for Shares will only be accepted on a cleared funds basis in the Base Currency.

Applications received after the Dealing Deadline for the relevant Dealing Day shall be deemed to have been received by the next Dealing Deadline, save in exceptional circumstances where the Directors may in their absolute discretion (reasons to be documented) determine and provided the Applications are received before the Valuation Point for the relevant Dealing Day. Repurchase requests received after the Dealing Deadline shall be treated as having been received by the following Dealing Deadline, save in exceptional circumstances where the Directors may in their absolute discretion (reasons to be documented) determine and provided they are received before the Valuation Point for the relevant Dealing Day.

Subscription Settlement Date: Subscription monies should be paid to the account specified in the Application Form (or such other account specified by the Administrator) so as to be received by no later than one Business Day after the relevant Dealing Day. If payment in full and/or a properly completed Application Form along with all required anti-money laundering documentation have not been received by the relevant times stipulated above, the application may be refused.

Redemption Settlement Date: Payment of Repurchase Proceeds will be made by electronic transfer to the account of the redeeming Shareholder at the risk and expense of the Shareholder normally within three Business Days of the relevant Dealing Day and, in all cases, will be paid within ten Business Days of the Dealing Deadline for the relevant Dealing Day, provided that all the required documentation has been furnished to and received by the Administrator.

3.8 Exchange of Shares

Shareholders may exchange between similar Classes of Shares in accordance with the provisions set out under the heading "**Exchange of Shares**" in the Prospectus. The Directors can refuse an application to exchange between Classes of Shares in accordance with the provisions set out under the heading "**Exchange of Shares**".

3.9 Dividend Policy

For the Class A Accumulating Shares, the Class B Accumulating Shares, the Class C Accumulating Shares, the Class D Accumulating Shares, the Class E Accumulating Shares and the Class F Accumulating Shares (the "**Accumulating Share Classes**") (and indicated as such in the table in the section above titled "**Key Information for Buying and Selling Shares**"), it is the present intention of the Directors not to declare or pay dividends, and any income or gains earned by the Fund and these Share Classes, will be reinvested and reflected in the value of the Shares.

For the Class A Distributing Shares, the Class B Distributing Shares, the Class C Distributing Shares, the Class D Distributing Shares, the Class E Distributing Shares and the Class F Distributing Shares (the "**Distributing Share Classes**") (and indicated as such in the table in the section above entitled "**Key Information for Buying and Selling Shares**"), subject to net income being available for distribution, the Directors intend to declare dividends on the Distribution Date and such dividends will be paid on or before the 14th Business Day following the Distribution Date to all Shareholders entered on the register of Shareholders at the close of business on the Business Day immediately preceding the Distribution Date and therefore applicants for Shares to be dealt on or after the Distribution Date will not be entitled to the distribution paid in respect of such Distribution Date but Shareholders seeking to repurchase their Shares on or after the Distribution Date will receive the distribution paid in respect of such Distribution Date.

The Directors reserve the right to increase or decrease the frequency of dividend payments, if any, at their discretion for the Distributing Share Classes. In the event of a change of policy full details will be disclosed in an updated Supplement and Shareholders will be notified in advance.

Under the Constitution, dividends may be paid out of the profits, being (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the Fund; or (iii) out of capital.

Dividends are paid out of capital to allow the provision of income to Shareholders of the Distributing Share Classes, in the event of insufficient income being in the Fund for a particular period.

Dividends will be paid to Shareholders by electronic transfer to the relevant Shareholder's bank account of record on the initial Application Form in the currency of denomination of the relevant Distributing Share Class at the expense of the payee and within the timeframe outlined above. The net income available for distribution in respect of the relevant Distributing Share Class will be determined in accordance with the relevant law and generally accepted accounting principles consistently applied.

Please also refer to the section in the Prospectus entitled "**Dividend Policy**".

Investment Management Fee & Expenses

The Investment Manager shall be entitled to the maximum annual Investment Management Fee equal to a percentage of the Net Asset Value of the relevant Class detailed in Clause 3.7 above.

Such fee shall be calculated and accrued at each Valuation Point and payable monthly in arrears.

The Investment Manager is also entitled to its reasonable out-of-pocket expenses out of the assets of the Fund.

Fees of any appointee or duly appointed sub-investment manager shall be discharged from the Investment Management Fee.

Distributor Fee & Expenses

The Distributor shall be entitled to the maximum annual Distributor Fee equal to a percentage of the Net Asset Value of the relevant Class detailed in the above table.

Such fee shall be calculated and accrued at each Valuation Point and payable monthly in arrears.

The Distributor is also entitled to its reasonable out-of-pocket expenses out of the assets of the Fund.

Depositary Fee & Expenses

The Depositary shall be entitled to an annual Depositary Fee equal to a percentage of the Net Asset Value of the relevant Class, detailed in the above table, subject to a minimum monthly fee of €600 in respect of the Fund and a transaction fee for each transaction conducted pursuant to the Depositary Agreement which will be charged at normal commercial rates. Such fee shall be calculated and accrued at each Valuation Point and payable monthly in arrears.

The Depositary shall also be entitled to be reimbursed out of the assets of the Fund all agreed sub-custodian fees, expenses and transaction charges (which will be charged at normal commercial rates) as agreed with the Directors.

Administrator Fee & Expenses

The Administrator shall be entitled to the maximum annual Administrator Fee equal to a percentage of the Net Asset Value of the relevant Class detailed in the above table. Such fee shall be calculated and accrued at each Valuation Point and payable monthly in arrears. The Administrator shall also be entitled to a minimum annual fee in respect of the Fund of €30,000 per year and a transaction fee for each transaction conducted pursuant to the Administration Agreement which will be charged at normal commercial rates.

The Administrator is also entitled to its reasonable out-of-pocket expenses out of the assets of the Fund.

3.11 Other Fees and Expenses

This section should be read in conjunction with the section entitled "**Fees and Expenses**" in the Prospectus.

(a) Anti-Dilution Levy

The Directors reserve the right to impose an Anti-Dilution Levy in the case of net subscriptions and/or net repurchases on a transaction basis as a percentage adjustment (to be communicated to the Administrator) on the value of the relevant subscription/repurchase calculated for the purposes of determining a subscription price or repurchase price to reflect the impact of other dealing costs relating to the acquisition or disposal of assets and to preserve value of the underlying assets of the Fund where they consider such a provision to be in the best interests of a Fund. Such amount will be added to the price at which Shares will be issued in the case of net subscription requests and deducted from the price at which Shares will be repurchased in the case of net repurchase requests. Any such sum will be paid into the account of the Fund.

Establishment Expenses

All fees and expenses relating to the establishment and organisation of the Fund as detailed in the section of the Prospectus entitled "**Establishment Expenses**" not exceeding €20,000 shall be borne by the Company and amortised in accordance with the provisions of the Prospectus.

(b) **Fees payable within underlying CIS**

The CIS in which the Fund may invest will bear their own fees and expenses. The CIS will also be subject to management fees and other expenses of a similar nature to those applying with respect of the Fund such as redemption fees, subscription fees and the fees of services providers such as trustees and administrators. The Fund will typically only invest in CIS, which charge management fees of up to 3% of the CIS net asset value.

3.12 Miscellaneous

Additional Funds of the Company may be added in the future with the prior approval of the Central Bank. The names of the other Funds are disclosed in the Prospectus.

Appendix I

Template pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

	Product name: Davy SRI Cautious Growth Fund	Legal entity identifier: 635400BQCHF8FTCQC97
Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices. The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities . That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not. ● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

Derivatives are not used to attain the environmental or social characteristics promoted by the Fund.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.
 #2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to making Taxonomy-aligned investments.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

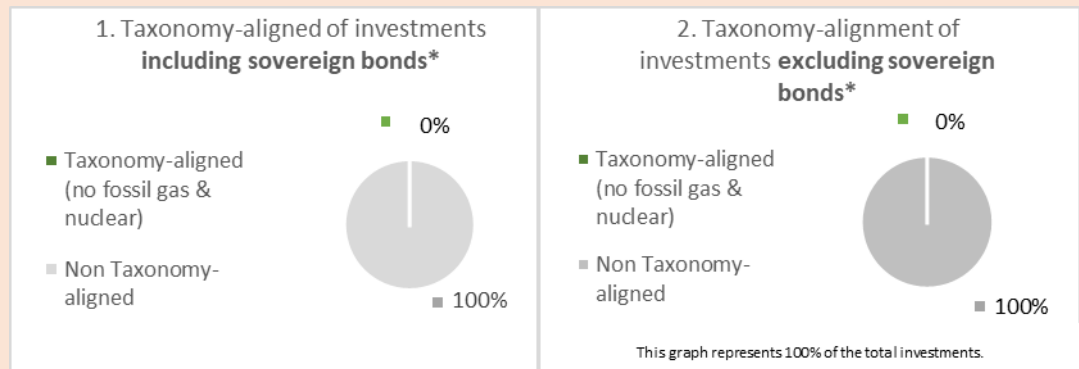

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
