

KEY INFORMATION DOCUMENT

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Davy UK GPS Cautious Growth Fund

PRODUCT

Product:	Davy Funds plc - Davy UK GPS Cautious Growth Fund - Class A Accumulating Shares
Manufacturer name:	J&E Davy
Product code:	IE00BYTYGV37
Website:	ManCo@iqeq.com
Competent Authority:	J&E Davy is authorised in Ireland and regulated by the Central Bank of Ireland. This PRIIP is authorised in Ireland.
Domicile country:	Ireland

Document valid as at: 30 September 2023

WHAT IS THIS PRODUCT?

Type:

UCITS. The Class A Accumulating has been selected as being representative of Class A Distributing, and as such separate PRIIP has not been prepared for this share class.

Term:

This product is not subject to any fixed term.

Objectives:

The investment objective of the Fund is to achieve a rate of return in excess of inflation while seeking to minimise volatility of returns by investing in a diversified portfolio of predominantly defensive assets.

Intended Retail Investor:

Investors who prioritise reduced risk. It follows a strategy which aims for lower volatility, but which could produce lower returns over the medium term

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of the fund to pay you.

The risk indicator assumes you keep the product for 4 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended minimum holding period: 4 years Investment 10 000 GBP			
Survival Scenarios Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.		If you exit after 1 year	If you exit after 4 years (recommended holding period)
Stress scenario	What might you get back after costs	6 490 GBP	7 160 GBP
	Average return each year	-35.11 %	- 8 %
Unfavourable scenario	What might you get back after costs	8 990 GBP	9 220 GBP
	Average return each year	-10.15 %	- 2 %
Moderate scenario	What might you get back after costs	10 180 GBP	11 140 GBP
	Average return each year	1.83 %	2.73 %
Favourable scenario	What might you get back after costs	11 020 GBP	11 880 GBP
	Average return each year	10.19 %	4.4 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 09/2021 and 09/2023.

Moderate: This type of scenario occurred for an investment between 03/2018 and 02/2022.

Favourable: This type of scenario occurred for an investment between 02/2016 and 01/2020.

WHAT HAPPENS IF J&E DAVY IS UNABLE TO PAY OUT?

The Fund is responsible for paying redemptions and any other payment obligations due to investors. The Manager is not responsible for meeting the obligations of the Fund to investors from its own assets. The Fund's assets are safeguarded by the Depositary in accordance with applicable law. If the Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default (or that of any custody delegate).

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- GBP 10 000 is invested.

Investment 10 000 GBP	If you exit after 1 year	If you exit after 4 years
Total costs	109 GBP	493 GBP
Annual Cost Impact*	1.09 %	1.12 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.85% before costs and 2.73% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product.	N/A
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	N/A
Ongoing costs		
Management fees and other administrative or operating costs	0.85% The ongoing charges are the running costs of the Fund, including distribution and marketing, but exclude transaction costs and performance fees.	86 GBP
Portfolio transaction costs	0.23% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. This also includes the costs incurred by the underlying managers when they buy and sell investments. The actual amount will vary depending on how much we buy and sell.	23 GBP
Incidental costs taken under specific conditions		
Performance Fee	There is no performance fee for this product.	N/A

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended minimum holding period: 4 years

The above mentioned period has been defined in accordance to the product characteristics. It is determined on the basis of the fund's risk and reward profile. Your ideal holding period may be different from this minimum recommended holding period. We recommend that you discuss this with your advisor. If the holding period is shorter than the recommended minimum, this may have a negative impact on the fund's risk and reward profile. You may request to redeem the units held at any moment, in accordance with the Prospectus of the fund. Any costs are shown under "Composition of costs" above.

HOW CAN I COMPLAIN?
