

IQ-EQ France

Directorship and Management services in 3 minutes

Within the private assets ecosystem, IQ-EQ is a leading international investor services group, with over 5800 employees across 25 countries and assets under administration (AUA) exceeding US\$750 billion. Supported by the dynamics of our group and committed to creating added value for our clients, IQ-EQ in France supports entrepreneurs, alternative investment professionals and managers by offering them a range of services across the entire investment value chain.

In this vein, we offer our French and international clients directorship and management services. This means that we act as corporate officer for established or newly formed companies. This could entail, for instance, acting as Chairman or Chief Executive Officer (CEO) in an Société par Actions Simplifiée (SAS - simplified joint stock company), or as Manager in an Société Civile Immobilière (SCI - non-trading property company).

Through our subsidiary IQ EQ France, we offer to take on the management of your companies, providing comprehensive support in their administration. This can include the management of your movable or immovable assets, such as appointing and supervising service providers such as property managers, opening bank accounts, or organising the sale of assets.

Our team of experienced chartered accountants and specialised professionals can also handle your company's accounting needs and, if necessary, its domiciliation through our subsidiary, IQ EQ SAS.

Streamlined and transparent procedure:

- We carry out full due diligence, including Know Your Customer (KYC) procedures on your company and its associates
- We review your file with the management committee to ensure an informed decision
- We enter into a contractual agreement, with clearly defined powers and responsibilities
- We carry out our mandate and provide regular monitoring according to your requirements, with precise and tailored reporting

Our Management Services include the following responsibilities:

- Appointment as company representative
- Active management in compliance with legal requirements
- Power restrictions (joint determination)
- Reporting according to a defined format and frequency

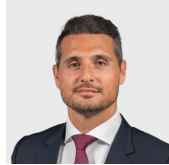

At IQ-EQ, we are committed to delivering high-quality directorship and management services, enabling you to focus on what truly matters: the growth and success of your business.
