Domicile country:	Ireland

Document valid as at: 25 November 2024

WHAT IS THIS PRODUCT?

Type:

UCITS

Term:

The Fund is not subject to any fixed term, however, it may be terminated in certain circumstances as described in the prospectus of the ICAV (the "Prospectus").

Objectives:

The Fund's objective is to generate investment returns superior to equity U.S markets in both up and down markets. The Fund seeks to attain its objective by utilizing a long only investment strategy and by investing primarily in the equity securities of undervalued companies. The investment manager's process involves deep fundamental research into, and analysis of, a company's financial statements, together with its competitive positioning and prospects in its markets, to understand its intrinsic value and its growth potential.

The Fund's portfolio will generally consist of what the investment manager believes are the 25-35 best investment opportunities available. The Fund will largely focus on the equity securities of North American companies and on companies with large capitalizations generally in excess of USD 5 billion. The Fund will maintain a secondary focus on equity securities in international markets.

In addition to direct investments in equity securities, indirect exposure may be achieved through investments in collective investment schemes such as exchange traded funds (ETFs) or through investments in certificates giving exposure to equities such as American depositary receipts (ADRs).

The Fund may use futures, options or swaps for efficient portfolio management purposes, to hedge exposures held by the Fund, or to obtain exposure to securities or the markets described above, where it is more efficient to do so, for example, pending direct investment of new subscriptions to the Fund in equity securities.

For cash and risk management purposes, the Fund may also hold ancillary liquid assets such as cash and cash equivalents.

Shares in the Fund can be bought and sold on any business day in Ireland in which the New York Stock Exchange is also open. The Fund measures its performance against the S&P 500 Index and the Russell 1000 Value Index, two American stock market indices. The S&P 500 Index is based on the market capitalizations of 500 large US listed companies and the Russell 1000 Value Index measures the investment returns of large capitalization value stocks in the US. This share class is an accumulating share class and does not pay dividends, however, other share classes of the Fund may pay dividends to shareholders.

The Fund's depositary is Northern Trust Fiduciary Services (Ireland) Limited. You can obtain copies of the Prospectus of Skyline Umbrella Fund ICAV, the Fund Supplement, the latest annual and semi-annual accounts of Skyline Umbrella Fund ICAV from <https://iqeq.com/skyline>. The latest published prices of shares of the Fund and other practical information can be requested from Manco@iqeq.com. The documentation is available in English and is free of charge.

The Fund is actively managed as the investment manager has discretion to invest in securities, issuers, companies or sectors not included in the S&P 500 Index or in the Russell 1000 Value Index.

Intended Retail Investor:

The typical investors of the Fund are expected to be institutional and retail investors seeking returns superior to U.S. equity markets in both up and down markets.

Representative Share Class Information:

This key information document relates to the Z EUR Hedged Acc class of the Fund but is also representative of the Founders USD Acc, Founders R USD Acc, Founders R GBP Acc, Founders R GBP Hedged Acc, Founders R USD Dist, Founders R GBP Dist, Founders R GBP Hedged Dist, Founders R EUR Acc, Z USD Acc, Z GBP Acc, Z, GBP Hedged Acc, Z USD Dist, Z GBP Dist, Z GBP Hedged Dist, Z EUR Acc, Z CHF Acc and Z CHF Hedged Acc share classes. Further information in respect of these other share classes is set out in the Fund Supplement.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the Fund for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Risk indicator

The summary risk indicator is a guide to the level of risk of this Fund compared to other products. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you.

We have classified the Fund as class 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the Fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Although the Fund will strive to reduce counterparty credit risk, there is no assurance that a counterparty will not default or that the Fund will not sustain losses as a result. The Fund may at times invest in securities that are inherently less liquid and more difficult to sell. The Fund may be exposed to the creditworthiness and performance of one or more counterparties. The Fund's success may be affected by general economic and market conditions that could adversely impact the Fund's profitability or result in losses.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

What you will get from the Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended minimum holding period: 5 years Investment 10 000 EUR			
Scenarios Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Stress scenario	What might you get back after costs	840 EUR	850 EUR
	Average return each year	-91.61 %	- 38.9 %
Unfavourable scenario	What might you get back after costs	6 910 EUR	10 880 EUR
	Average return each year	-30.88 %	1.71 %
Moderate scenario	What might you get back after costs	11 180 EUR	16 010 EUR
	Average return each year	11.77 %	9.87 %
Favourable scenario	What might you get back after costs	16 930 EUR	23 350 EUR
	Average return each year	69.34 %	18.48 %

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 11/2021 and 07/2024.

Moderate: This type of scenario occurred for an investment between 06/2017 and 05/2022.

Favourable: This type of scenario occurred for an investment between 11/2016 and 10/2021.

WHAT HAPPENS IF EAGLE CAPITAL MANAGEMENT, LLC IS UNABLE TO PAY OUT?

The Fund is responsible for paying redemptions and any other payment obligations due to investors and Eagle Capital Management, LLC is not responsible for meeting the obligations of the Fund to investors from its own assets. The Fund's assets are safeguarded by the Depositary in accordance with applicable law. If the Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default. There is no compensation or guarantee scheme in place (in Ireland where the Fund is domiciled) for losses suffered by investors.

WHAT ARE THE COSTS?

The person advising on or selling you this Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment 10 000 EUR	If you exit after 1 year	If you exit after 5 years
Total costs	131 EUR	1 073 EUR
Annual Cost Impact*	1.31 %	1.44 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.30% before costs and 9.87% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	An Anti-Dilution Levy or an Anti-Dilution Adjustment of up to 1% may be imposed to cover dealing and other costs in the event of receipt of net subscriptions or redemption requests.	N/A
Exit costs	An Anti-Dilution Levy or an Anti-Dilution Adjustment of up to 1% may be imposed to cover dealing and other costs in the event of receipt of net subscriptions or redemption requests.	N/A
Ongoing costs		
Management fees and other administrative or operating costs	0.90% The ongoing charges are the running costs of the Fund, including distribution and marketing, but exclude transaction costs and performance fees.	91 EUR
Transaction costs	0.40% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Fund. The actual amount will vary depending on how much we buy and sell.	40 EUR
Incidental costs taken under specific conditions		
Performance Fee	There is no performance fee for this Fund.	N/A

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended minimum holding period: 5 years

The above mentioned period has been defined in accordance to the Fund's characteristics. It is determined on the basis of the Fund's risk and reward profile. Your ideal holding period may be different from this minimum recommended holding period. We recommend that you discuss this with your advisor. If the holding period is shorter than the recommended minimum, this may have a negative impact on the Fund's risk and reward profile. You may request to redeem the shares held at any moment, in accordance with the Prospectus of the Fund. Any costs are shown under "Composition of costs" above.

HOW CAN I COMPLAIN?
