Fortem Capital US Equity Income Fund

A sub-fund of Skyline Umbrella Fund ICAV

Class F Distributing shares in Singapore Dollars

ISIN: IE000X4Y3LD4

Investment Manager: Fortem Capital Limited

Fund Manager: IQ EQ Fund Management (Ireland) Limited (the "Manager")

Investment Objective, Policies and Strategies

- ~ The investment objective of the Fund is to provide investors with a total return, taking into account both capital and income returns, and which reflects the total return of the S&P 500® Index (the "Index").
- ~ The Fund aims to track the performance of the Index. The Index is comprised of US large capitalisation equities and includes the 500 largest companies, as measured by market capitalisation and covers approximately 80% of available market capitalisation.
- ~ Further details on the Index and any publications in relation to the Index, including Index constituents can be found here: <http://eu.spindices.com/indices/equity/sp-500>
- ~ The Fund will employ a strategy of combining a portfolio of the constituents of the Index, synthetically or physically, in proportion to their weighting in the Index, with, where appropriate, an option overlay strategy with the aim of providing an enhanced level of income and the prospect of long-term capital growth.
- ~ The income will be generated from i) the dividends received from the constituents of the Index and ii) where adopted, the premiums received from the option overlay strategy, with the Index exposure also providing the prospect for capital growth.
- ~ To enhance the dividends received, the Fund may use the option overlay strategy. This involves the Fund selling short term options, over the Index in exchange for receiving option premium, whilst simultaneously mitigating the underlying Index exposure brought about by the sale of those options.
- ~ Depending on market conditions and transaction costs, the Fund may track the performance of the Index (i) synthetically by investing indirectly in the constituents of the Index through the use of financial derivative instruments ("FDIs") (on exchange and over the counter) (ii) through physical methods by purchasing the underlying constituents of the Index or (iii) a combination of both synthetic and physical methods.
- ~ To track the index performance, the Investment Manager uses a passive management approach and tracks the performance of all of the constituents comprising the Index.
- ~ The anticipated level of tracking error of the Index in normal market conditions is up to 1%. This will be disclosed in the annual and semi-annual accounts of the ICAV.
- ~ On demand, you may buy or sell your shares on any Business Day, being a weekday on which commercial banks in Ireland and United Kingdom (and in any other financial centre that the Directors may determine to be relevant for the operations of the Fund) are open for normal banking business.
- ~ Dividends will usually be declared quarterly on the 20th day of January, April, July and October of each year.
- ~ The Fund is suitable for investors who are seeking capital growth over a minimum of 3 years and who are willing to tolerate medium to high risks due to the potentially volatile nature of the investments.

Risk and Reward Profile

- ~ The lowest category does not mean 'risk free'.
- ~ The Fund's risk category shown is not guaranteed and may change in the future for various reasons including general market developments and changes such as geo-political factors.
- ~ The risk category selected is based upon simulated historical data and is consistent with the Fund's risk profile at inception. However, any historical data may not be a reliable indicator of future returns.
- ~ The value of investments and the income from them and therefore the value of, and income from the Shares in the Fund, may go down as well as up and an investor may not get back the amount he or she invests.
- ~ The fund is rated 6 due the nature of its investments which includes the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses:
- ~ The performance of the underlying Index and / or Index constituent(s); compiler of the index from time to time or shares comprising the index may be delisted.
- ~ **Issuer Risk:** The insolvency of any institution that is the issuer of a Bond held by the Fund may expose the Fund to financial loss.

- ~ **Counterparty Risk:** The Fund may enter into over-the-counter ("OTC") FDIs with approved counterparties. If an approved counterparty defaults, there is a risk that the Fund will lose all or some of the value of that FDI.
- ~ **Index-Tracking Risk:** A passively-managed fund is not expected to track or replicate the performance of its respective index at all times with perfect accuracy and there can be no assurance that the Fund will achieve any particular level of tracking accuracy. The Investment Manager will also not have the discretion to adapt to market changes due to the inherent nature of a passively-managed fund and so falls in its respective index are expected to result in corresponding falls in the value of the Fund.
- ~ **Issuer Risk:** The insolvency of any institution that is the issuer of a Bond held by the Fund may expose the Fund to financial loss.
- ~ The composition of an index may be changed by the
- ~ **Dividends:** A significant deterioration in the level of dividends paid out by one or more of the companies comprising the Index may reduce an Investor's return.
- ~ The Fund may use total return swaps for investment purposes to gain economic exposure to the equities and the Indices. The approved counterparty may provide collateral to the Fund, including cash, US treasury bills and other high-quality government bonds with a maturity of up to 7 years.
- ~ Investors should refer to the prospectus, which can provide more information on risks.
