WHAT IS THIS PRODUCT?

Type:

AIF. The DPES III Class A has been selected as being representative of DPES III Class C, and as such separate PRIIP has not been prepared for this share class.

Term:

This product is not subject to any fixed term.

Objectives:

The investment objective of the Davy Private Equity Strategies Fund III is to generate long term capital growth by investing primarily in a range of private equity type investments. J&E Davy as Investment Manager will principally aim to achieve the private equity exposure by investing in a diversified portfolio of private equity Investment Funds giving due consideration to the quality of the underlying fund's investment management team, their strong long term track record and their diverse global investment activities. Such Investment Funds may include large buyout funds, gross and venture capital funds, real estate funds, mezzanine funds and special situation funds. While the Investment Manager retains the discretion to vary the asset allocation of the, all other investment powers are ancillary to the principal aim of achieving private equity exposure.

Intended Retail Investor:

The Product is targeted at Eligible Counterparties, Professional Clients and Retails Clients (only where retail clients meet the Irish Qualifying Investor criteria). The investor's objective for this investment should be aligned with that of the Product as outlined above.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 10 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 15 years. Markets could develop very differently in the future.

Recommended minimum holding period: 10 years Investment 10 000 USD				
Survival Scenarios Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.		If you exit after 1 year	If you exit after 5 years	If you exit after 10 years (recommended holding period)

	Average return each year	52.97 %	22.4 %	18.6 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 11/2021 and 12/2024.

Moderate: This type of scenario occurred for an investment between 05/2010 and 04/2020.

Favourable: This type of scenario occurred for an investment between 11/2011 and 10/2021.

WHAT HAPPENS IF J&E DAVY IS UNABLE TO PAY OUT?

The Fund is responsible for paying redemptions and any other payment obligations due to investors. The Manager is not responsible for meeting the obligations of the Fund to investors from its own assets. The Fund's assets are safeguarded by the Depositary in accordance with applicable law. If the Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested.

Investment 10 000 USD	If you exit after 1 year	If you exit after 5 years	If you exit after 10 years
Total costs	577 USD	3 290 USD	12 556 USD
Annual Cost Impact*	5.77 %	3.67 %	3.33 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 17.54% before costs and 14.21% after costs.

Composition of Costs
