Arbrook American Equities Fund (the "Fund"): Class F1 SIF (GBP) Accumulating Shares

A sub-fund of Skyline Umbrella Fund ICAV (the "ICAV")

ISIN: IE0008GQ7524

The Fund is managed by IQ EQ Fund Management (Ireland) Limited (the "Manager")

Objectives and Investment Policy

The investment policy of the Fund is to provide capital appreciation and income over the medium term through an actively managed, diversified portfolio of equities of companies predominantly based in the United States.

The Fund aims to outperform the S&P 500 index which it uses as its benchmark (the "Benchmark"), over a rolling three-year time horizon.

The Fund will invest at least 80% of its assets in equities and equity like securities such as preferred stock or American Depository Receipts (ADRs) listed in the United States.

The investment strategy of the Fund will be based on a fundamental value-oriented stock picking methodology that targets stocks that are trading at discounts to their intrinsic worth.

The Fund's investment strategy is size agnostic and there will be a mix of capitalisation sizes of stocks, however the Fund will typically skew towards larger cap stocks.

This share class does not pay a dividend.

The Fund is suitable for investors who are willing to tolerate medium to high risks and who are seeking a portfolio which has a minimum 3 year term.

The Fund is actively managed in reference to the Benchmark as its performance is compared to the Benchmark in marketing materials and the Fund's performance is measured against the Benchmark for performance comparison purposes only. Investments in the portfolio are not specifically selected from the constituents of the Benchmark, hence the Fund's investment policy is in no way constrained and the degree of deviation from the Benchmark may be significant.

Risk and Reward Profile

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

The risk and reward category shown is not a target or guaranteed and may shift over time. A category 1 is not a risk free investment. This indicator is not a measure of the risk of you losing the amount you have invested. The Fund is not guaranteed and your investment is at risk.

This Fund is in category 6 (denoting higher risk, but with the potential for higher rewards) because of the higher range and frequency of price movements of the underlying investments made.

The indicator above does not take account of the following risks of investing in the Fund:

Credit Risk – A borrower or counterparty may fail to repay or otherwise fail to meet contractual obligations to the Fund.
Liquidity Risk - under unusual market circumstances certain assets in which the Fund invests may be subject to liquidity constraints.
Investment Risk – The Fund may not achieve its investment objective. An investment in any Fund involves investment risks including possible loss of the amount invested.
Foreign Exchange Risk - As the Fund may invest in global equity securities, there is a risk of currency fluctuations, economic or financial insolvency, lack of timely or reliable financial information, possible imposition of foreign withholding taxes or unfavourable political, economic or legal developments.
There is no guarantee that the value of investments in this Fund will increase. Losses may be incurred on this investment.
