

# KIDs for PRIIPs

PRIIPs regulation is applicable to fund managers who produce or sell investment products to non professional investors in Europe. A KID should be provided to the investor before the PRIIP is made available. The content and format of a KID are highly prescriptive and can be complex to get right. On top of that, changing regulations mean fund managers need to be ready to adapt the KIDs they produce.

## Our solution

We know the PRIIPs regulation inside out and are on top of what the changes are expected to be with regard to:

- Calculation methodology
- Costs disclosures
- Transaction costs
- Past performance
- Narratives

Our team is currently producing KIDs for a number of fund managers. We know the importance of timely turnaround, accuracy and ease of use. We aim to take the headache out of producing KIDs at a realistic, fixed price.
