Term:

This product is not subject to any fixed term.

Objectives:

The investment objective of Davy Select Global Fund is to provide investors with capital appreciation consistent with prudent investment management. J&E Davy as Investment Manager intends to pursue the investment objective of the Fund by investing on a global basis in multiple asset classes including (but not limited to) equity securities listed or traded on regulated markets and investment grade and below investment-grade government and corporate bonds both listed or traded on regulated markets and unlisted bonds, commercial paper (i.e. short-term paper issued by credit institutions), cash and Cash Equivalents, private equity debt securities (principally mezzanine debt but including securitised loan notes and convertible bonds), private equity securities including warrants and preferred stock (collectively "private equity investments"), shares of listed and unlisted investment funds, contracts for difference ("CFDs"), property and property related assets. The Investment Manager intends to maintain the widest possible flexibility in relation to the range of investment instruments invested in and Investments may be made on a global basis in any jurisdiction.

Intended Retail Investor:

The Product is targeted at Eligible Counterparties, Professional Clients and Retails Clients. The investor's objective for this investment should be aligned with that of the Product as outlined above.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of the Fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended minimum holding period: 5 years Investment 10,000 EUR			
Survival Scenarios Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Stress scenario	What might you get back after costs	7,590 EUR	7,180 EUR
	Average return each year	-24.09 %	- 6.42 %
Unfavourable scenario	What might you get back after costs	9,420 EUR	10,140 EUR
	Average return each year	-5.8 %	0.28 %
Moderate scenario	What might you get back after costs	10,310 EUR	11,950 EUR
	Average return each year	3.14 %	3.62 %
Favourable scenario	What might you get back after costs	11,690 EUR	13,050 EUR
	Average return each year	16.9 %	5.47 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 12/2015 and 11/2020.

Moderate: This type of scenario occurred for an investment between 07/2019 and 06/2024.

Favourable: This type of scenario occurred for an investment between 09/2017 and 08/2022.

WHAT HAPPENS IF J&E DAVY IS UNABLE TO PAY OUT?

The Fund is responsible for paying redemptions and any other payment obligations due to investors. The Manager is not responsible for meeting the obligations of the Fund to investors from its own assets. The Fund's assets are safeguarded by the Depositary in accordance with applicable law. If the Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment 10,000 EUR	If you exit after 1 year	If you exit after 5 years
Total costs	188 EUR	1,165 EUR
Annual Cost Impact*	1.88 %	1.95 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.57% before costs and 3.62% after costs.
